

First and Second Year Students

First and second year students should absolutely attend Career Days. The main thing is to be there to get a feel for what it involves and to begin building lasting relationships with firms that will help shape your career direction.

You may be interested in finding out about careers in general, career paths or skills, talents and qualifications that firms expect from their employees.

TIPS

- Be sure to visit the **CAREER DAYS** website and take a look at the **Schedule of Events** and **Firms Attending** for both Wednesday and Thursday. This information can help you plan what presentations you would like to attend and what types of firms you would like to visit.
- You may want to learn about diverse firms and about their projects.
- You may be interested in building a relationship with specific firms for future internships or jobs.
- First and second year students have landed summer internships at Career Days.

CORE: First Year Students

A **Passport** has been developed specifically to help first year, **CORE** students get the most from Career Days. **Passports** will be available at the Registration on Wednesday or Thursday. CORE students who participate in Career Days will be eligible to receive COOL prizes in an “after event” drawing.

All Design Students

Firm representatives attend this event to meet students and to assist them with career development. Do not hesitate to ask any firm representative to critique your portfolio or resume; they will gladly do this.
