

Leadership Philosophy

In my role as a Fellow in the Provost Office, I have an opportunity to develop leadership skills in Higher Education, supported by projects, career development opportunities, and coaching. Elected as Faculty Senate President-elect and Faculty Senate President in the pandemic years 2020 – 2022 during a period of pandemic health fears and safety protocols in the US Universities and social tension, my leadership skills for the Faculty were challenged. At the same time, this was an opportunity for growth, development, and success. My leadership philosophy is situational. I am a strong advocate for coaching. I have held a leadership position on the Faculty Senate. I served in a variety of task forces and University standing committees, including the Strategic Planning leadership committee. I contributed to policies and reports, including the update to the US Diversity Class. As a faculty member, Promotion and Tenure and Hiring committees.
