Internship Graphic Design

**Procedures**

Internship approval must be arranged prior to the work experience. The student must file the **Pre-Registration Form** to obtain departmental permission for Internship Credit. This should be submitted your sections internship coordinator prior to beginning the internship.

Prior arrangements also include the signing of the **Letter of Agreement** by the internship faculty advisor, the sponsor and the student. The signing of the letter should be completed before the experience begins.

Summer internships are for 3 credits and generally involve 40 hours per week for 8 weeks (320 hours). Internships during the school year should have the same number of hours.

The internship must provide sufficient opportunities for the student to gain in-depth experience in graphic design. The internship must not be work-for-hire or “virtual,” but provide an educational framework for the student. There must be adequate on-site professional supervision and workspace for the intern. During the first week of the internship the student and sponsor will fill out the **Learning Objectives** and send them to the faculty internship advisor.

The student must submit an **Activities Report** every two weeks; this should include visual materials as well as sketches, notes, time sheets or hours worked, examples of work in a clear and well designed format. Additionally, students must complete **Two Projects** (see the end of this document). The student grade will be based on the internship job performance and the completion of the required materials. The graphic design internship advisor will not be grading the products of an internship but what has been learned from the experience based on the documents a student provides. This will be evaluated by the contents of the **Two Projects, Activity Reports** along with the **Performance Evaluations** filled out by the sponsor.

The sponsor and student must abide by the responsibilities outlined in the **Letter of Agreement**.

Student Assignments

Grading/Deadlines

The grade you receive for your internship is based on the completion of the following assignments and materials.

Activities Report
Sent every 80 hours (2 weeks) to ISU via e-mail

Mid-Term Evaluation
Due Friday, June 27 or midway.

Final Evaluation
Due Friday, August 1 or at completion.

Projects

Project #1
Due Friday, June 27

Project #2
Due Friday, July 25

Incomplete grades have been issued in the past because the Projects and/or sponsor evaluations were not completed by the end of the term. The grade you receive will be a “C” until all the required materials are turned in. When the report is complete with all the assignments and the sponsor has completed the evaluations, the grade will be changed if the materials are worthy. We are trying to evaluate an experience and the more complete your materials are in explaining what you did and what you learned, the clearer the communication.

Activities Report

Every 2 weeks you are required to send (e-mail, CyBox or Blackboard), a report of your activities, this will include: a time sheet (or hours), notations and scans of work in progress, final pieces, etc. For this attachment, make sure your files are in the form of a singular multiple page .pdf file named in this manner: LASTNAME.report#.pdf Please make sure files are compressed to facilitate transmission and 5MB or less.

Projects

Together the projects create a complete documentation of your summer experience. There are 2 required projects, anything else should be added to clarify and communicate your experience to others. Students should include scans of printed pieces, rough designs (to show process), sketches, business forms used on the job, informal photographs of staff, etc. Your evaluation of your experience should be included in the projects. These projects must be submitted in the form of a singular multiple page .pdf file named in this manner: LASTNAME.project#.pdf Please make sure files are compressed to facilitate transmission, and 5MB or less.

Presentation

You may be asked to attend a seminar and present your experience to a group of graphic design students next year.

Student Final Assessment

Your final evaluation of the intern experience is very important. It will inform us if you accomplished your learning objectives, if you learned about the business of design and if you were able to grow and mature as a designer. You should be honest about how your sponsor used you as this will affect future placements at that site. This is information only you can provide. There are really three main areas that you need to address; the physical environment in which you worked, the experience you had and the activities you encountered.
Internship Graphic Design

Student Project 1  Due Friday, June 27, 2014 or 1/2 through internship

Profile of the Sponsor

The intent of this assignment is to provide the reader with a general description of your host firm, the services it offers, and the design philosophies it embraces. Provide the reader with an operational understanding of the organization and responsibilities of the personnel. You should provide an assessment of the responsibilities of the staff members and the way they interact.

Include all of the following and anything else which will communicate your experience more clearly.

General Description of the Firm

1. Narrative statement describing the general character of the firm, services offered and philosophy.

2. Photographs/slides documenting various aspects of the firm’s physical setting and personnel. (Photos of you in your office, the conference room, library, other personnel in their offices, etc. Include captions and names.)

3. Listing of Personnel including full names and job titles, with all relevant personnel clearly identified, and each person’s tasks identified. Use photos when possible. (Photos of you in your office, conference room, library, other personnel in their offices, etc, include captions and names) Include responsibilities such as who is responsible for bringing in new clients, who is responsible for billing, who is assigned the job of quality control.

Organizational Chart

1. Visually show the personnel and their relationships to each other. The organizational structure of the office may take many forms. You should analyze the organization and then present the analysis to your sponsor to check for accuracy.

Schematic Description of Office Operations

1. Show a floor plan of the office. Show how a typical job moves from one area to another. We are interested in the space planning of the studio.
Internship Graphic Design

Student Project 2 Due Friday, July 25, 2014 or near internship end

Business Procedures

The primary intent of this assignment is to provide the reader with procedural description of the business practices of the host. The secondary intent of this assignment is to provide a description of the design methods utilized in solving client related communication problems.

Include all of the following and anything else which will communicate your experience more clearly.

Business Practices

1. Track one job from start to finish. Document each step and the paperwork that must accompany the job. This could include the contract that is signed when the client agrees to terms and the brief that accompanies the job.

2. Obtain copies of each business form and explain its purpose.

Design Process

1. Track one job from start to finish. Document each step of the design process, include notes of meetings that took place and what was discussed. How are design decisions made and by whom, how does the idea of research relate, be able to document the process. How does the client interact in this process?

2. Show the process as visually as you are able, if several people are working on the same job, ask to document their sketches and notes. How are presentations held and who is involved, what is shown and what is said?

Student Final Assessment

This last section is a summary statement that reflects on the totality of your internship experience. Refer back to your original Learning Objectives. Did you meet them? Explain why they were or were not attained and provide specific examples. Inevitably you learned a great deal that you had not anticipated at the outset, please describe them, and again provide examples. Review your Activities Reports as they may provide some examples as well.
