

Master of Science in Sustainable Agriculture Master of Community & Regional Planning

Double Degree Program

The total number of credits necessary to receive double degrees in Sustainable Agriculture (MS) and Community and Regional Planning (MCRP) is 57: 27 credits in the SUSAG program and 31 credits in the CRP program. The specific course requirements are identified below.

SUSAG MS Core Requirements

STAT 401 Statistical Methods (4)
 SUSAG 509 Agroecosystems Analysis (4)
 SUSAG 610 Foundations of Sustainable Ag (3)
 SUSAG 600 Sustainable Ag Colloquium (4)
 Thematic area courses (excluding CRP credits) (6)
 Free electives (excluding CRP credits) (6)

SUSAG core total = 27 credits

MCRP Core Requirements

CRP 563 Planning the American Metropolis (3)
 CRP 564 Intro to Analytical Methods for Planning (3)
 CRP 561 Planning Theory for Practice (3)
 CRP 568 Planning and Development (3)
 CRP 566 Values and Decision Making (3)
 CRP 592 Land Use & Development Regulation Law (3)
 CRP 532 Community Planning Studio I (3)
 CRP elective (3)
 CRP 699 Thesis Research (6)

MCRP core total = 31 credits

TOTAL = 57 credits

For double degrees, the final project, in this case a thesis, must integrate subject areas from both fields, and the program of study (POS) committee must contain faculty from both programs. Specifically, the POS committee may include co-chairs, each of whom represents one of the programs, or a single chair, who is a member of the graduate faculty of both programs.

For more information on the SUSAG MS/MCRP double degree program, please contact:

Dr. Carlton Basmajian
 DOGE, CRP
 578 College of Design
 Phone: (515) 294-0493
 Email: carlton@iastate.edu

Dr. Mary Wiedenhoef
 DOGE, SUSAG
 1126D Agronomy Hall
 Phone: (515) 294-3274
 Email: mwiedenh@iastate.edu

Ideally, a graduate student ought to complete the dual degree program within a 2½ year cycle of enrollment. As a result, the following schedule is suggested as a means of accomplishing this double degree program.

Fall 1st year

CRP 564	Introduction to Analytical Methods for Planning	3 credits
STAT 401	Statistical Methods	4 credits
SUSAG 509	Agroecosystems Analysis (509 begins in August before the fall term begins)	4 credits
SUSAG 600	Sustainable Agriculture Colloquium	1 credits
SUSAG 610	Foundations of Sustainable Agriculture	<u>3 credits</u>
		15 credits

Spring 1st year

CRP 561	Planning Theory for Practice	3 credits
CRP 568	Planning and Development	3 credits
SUSAG 600	Sustainable Agriculture Colloquium	1 credits
_____	Elective or Thematic Area course	<u>3 credits</u>
		10 credits

Fall 2nd year

CRP 563	Planning the American Metropolis	3 credits
CRP 592	Land Use and Development Regulation Law	3 credits
CRP 566	Values and Decision Making	3 credits
SUSAG 600	Sustainable Agriculture Colloquium	<u>1 credits</u>
		10 credits

Spring 2nd year

_____	Elective and/or Thematic Area courses	9 credits
SUSAG 600	Sustainable Agriculture Colloquium	<u>1 credits</u>
		10 credits

Fall 3rd year

CRP 532	Community Planning Studio 1	3 credits
CRP 699	Thesis Research	<u>6 credits</u>
		9 credits

Program total = 57 credits
