Iowa State's entrepreneurship minor is an interdisciplinary curriculum that provides opportunities for students to learn about entrepreneurship – the process of creating value by recognizing and developing opportunities. The entrepreneurship minor serves to complement the student's major area of study in any college discipline at Iowa State.

Students in the entrepreneurship minor will develop skills and knowledge in the entrepreneurial process, business feasibility analysis, customer discovery, business planning, innovation, opportunity recognition, technology transfer, industry analysis, and startup strategy. Students will learn to develop an entrepreneurial mindset that applies to business creation or employment within an existing firm or organization.

The ISU Pappajohn Center for Entrepreneurship enhances the classroom experience by providing opportunities to collaborate with other entrepreneurial-minded students across campus, and offers a variety programs for the entrepreneurial-minded student. Students have the opportunity to pitch their ideas, receive feedback, and network with successful entrepreneurs. They may also participate in the Cystarters student accelerator.
